

Machine Quilting with Rulers

Machine Class or Demo
All Levels

The ¼" RULER FOOT that fits your Traditional Sewing Machine is a little machine quilting jewel.

This is your chance to see how easy it is to get perfect patterns stitched with precision using rulers. With your machine's particular ruler foot and any rulers you may have, plus an all-important extended table to keep rulers stable, you'll learn how to stitch the latest designs for all the different areas of your quilt tops.

I will bring my rulers to class too for you to try and use if you don't have your own yet.

Learn to coordinate your hands and stitching speed. Get tips to hold, position and move your rulers for smooth stitching. We'll create designs for spines, borders and block designs. This is a great class to learn how to get your own projects done.

Handout Amount 5.00 – Includes folder, handout, patterns and instructions.

Kit Amount 15.00 – Includes pre-stitched patterned muslin quilt sampler 20" x 20", folder, handout, patterns, and surprise gift.
